

ELEVEX

The Residential Vertical Platform Lift

The “Elevex” vertical platform lift has been designed to provide easy access for the elderly or physically challenged. As a hard-working, low-maintenance accessibility tool that sets the standard for residential wheelchair lifts, this ruggedly constructed lift has been proven in both outdoor and indoor applications. Easy to use and fast and simple to install, this lift provides an optimal solution for residential access, lifting up to 183 cm.

Life without barriers

Elevex - the vertical platformlift

Optional features:

- Upper landing gate
- Platform gate
- 90° entry/exit on platform
- Grab rail

We engineer all of our wheelchair lifts for their users' safety and comfort.

Each unit undergoes rigorous testing for quality assurance prior to shipping.

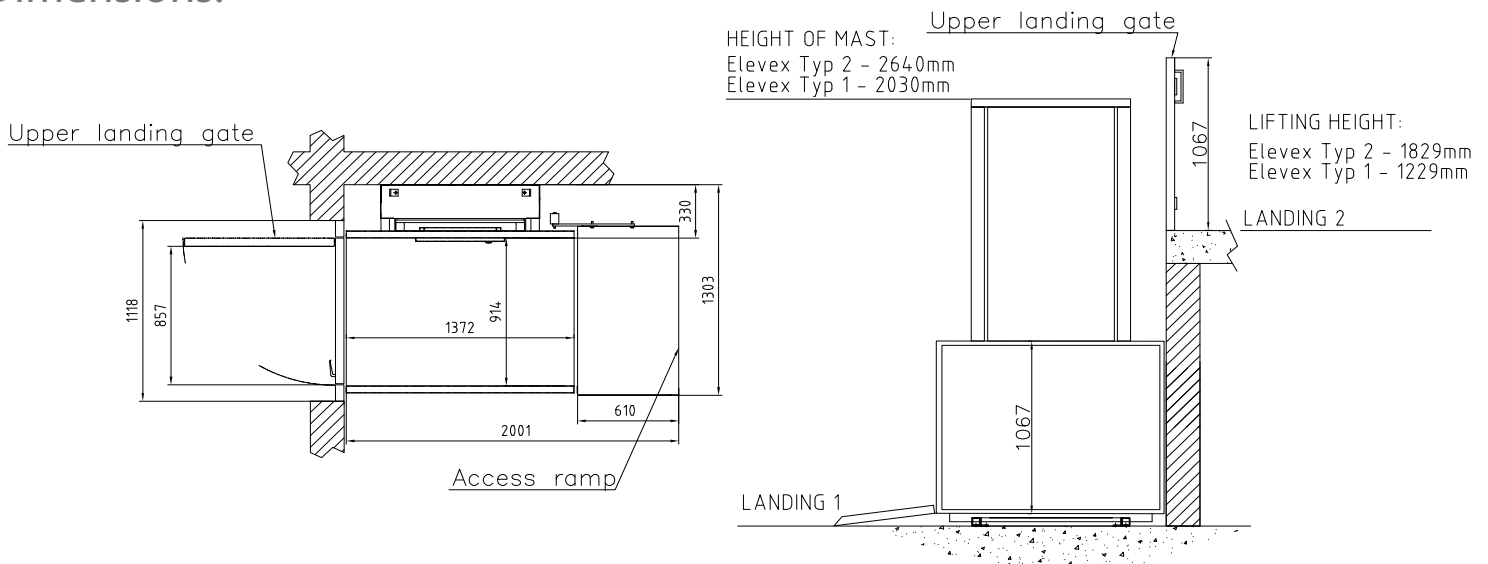

The ACME screw drive system offers a safe and reliable operation for its users.
