

# Reduce your Parking Fee

— **Flexible** Light and portable voucher printer ergonomically styled for retail environment.

— **Promote your store** Brand your logo on each voucher for additional advertisement.

— **Analysis of discounts** Every voucher is statistically registered and can be analyzed per account through the Zeag Management System.

— **Multiple validation** Collect rebate tickets and accumulate discount to lower the parking fee.

— **Fast discount** Rebate tickets are produced in advanced and handed out to the customer.

— **100% Free Parking** Give your customers free exit with a visitor ticket.

The **ValiPrint** is a simple and easy to use printer to issue barcode discount vouchers. A typical application is in retail shops that offer discounted parking fees to customers that buy goods from the store. The voucher is printed by the shop staff and handed to the customer. Payment or exit stations will then scan the barcode and re-calculate the fee with the pre-determined discount. Multiple discount vouchers can be used.

Rebate tickets can be provided in many different forms and applications. Typically giving a discount for parking fees by handing out a rebate or free exit ticket. These types of tickets are generally produced in advanced at the Coding Station and handed out to retailers, hotels, congresses etc. to attract more customers to the parking facility. Individual Rebate tickets can also be created at the Fee Computer XR.

## Product description

- Stand-alone printer
- 1 button for 1 validation type
- Thermal receipt paper
- Barcode scanner required at Payment Station, Fee Computer or Exit stations
- Temperature: 0°C to +40 °C (indoor installation)
- NIMH (Nickel Metal Hydride) AA format rechargeable battery
- Recharger power supply: 100 to 240 VAC
- Weight: approx. 450 g (including paper and power supply)

## Product features

- Voucher is thermal printed using a low cost receipt paper
- Fully auditable
- Unique number for each voucher
- Encrypted Barcode to avoid fraudulent validation
- Validation types can be combined in same car park with other Zeag validation solutions

## Options
