

Model DSN-50P

Portable Turnstile

The most notable feature of portable turnstile is convenience and portability.

It consists of a turnstile, ground plate, railing, and wheels.

It is suitable for various scenarios such as exhibitions, lawns, gardens, construction sites, etc., allowing easy mobility and usage without the need for bolt fixation to the ground.

The product's structure is exceptionally sturdy, making it suitable for installation in any environment.

Features

- Two way or one way working.
- Portable, easy to move.
- Support integrated with any type of access control systems.
