

IC983V-SN

IC983V-BN

IC983H-SN

IC983H-BN

Introduction

- Built-in rechargeable button battery
- Choice of Public or Private operating modes
- Backlit keypad for easy visibility
- LED indicator shows locked status
- Alarm sounds for incorrect password entries
- Durable zinc alloy construction
- Compatible with both metal and wooden cabinets

Technical Parameter

- Power Supply: CR1220/CR1225 lithium batteries
- Battery Life: 2+ years (20–50 uses/day)
- Voltage: DC 2.3V–3.3V
- Current Static $\leq 20\mu\text{A}$, Dynamic $\leq 200\text{mA}$
- Operating Range: -15°C to $+55^\circ\text{C}$, 20–95% RH
- Safety: Low battery warning system
- Door Thickness: Metal: 0.5–12mm, Wood: 16–22mm

Measurement

| Part | Name | Application |
|------|--------------------------------|--|
| | Flat | |
| | Hook | For single door of cabinet |
| | Offset | |
| | Heptagon | For double door of cabinet |
| | Rod connector | For metal file cabinet |
| | 3 x AAA alkaline batteries | Better for Public use (or Private use) For wooden door |
| | Lithium battery (Rechargeable) | Suitable for Private use For wooden or metal door |
