

Description

The JSL-120UW is a 1080P HD intelligent solar-powered wireless IP bullet camera designed for outdoor surveillance. Equipped with a dual-light source, PIR motion detection, two-way audio, and automatic tracking, it offers reliable day/night monitoring with a built-in rechargeable battery and solar charging for true wireless installation.

Main Features

- 1080P HD resolution with 2.0MP CMOS sensor for clear video.
- Solar-powered + 10400mAh rechargeable battery for true wireless operation.
- 3.6mm lens, 105° wide viewing angle.
- PIR motion detection and human tracking with instant alerts.
- Dual-light night vision with up to 15m range.
- Two-way audio communication.
- Supports Wi-Fi 802.11b/g/n (2.4GHz).
- Storage via cloud or TF card up to 128GB.
- IP65 waterproof for outdoor use.

Specification

Model	JSL-120UW
Camera	Wireless IP Bullet Camera
Resolution	1080P (2.0MP)
Sensor	1/3" CMOS
Lens	3.6mm, 105° viewing angle
Night Vision	Dual-light, IR up to 15m
Illumination	6pcs dual-colour LEDs
Audio	Two-way audio
Detection	PIR human sensing & human detection
Storage	TF card up to 128GB / Cloud storage
Wireless Standard	Wi-Fi 802.11 b/g/n (2.4GHz)
Power Supply	Solar panel (4W) + 4 × 18650 battery (2600mAh each) + USB charging
Battery Life	Standby: 6 months / Usage: ~3 months (20 triggers/day)
IP Level	IP65
Working Temperature	-10°C to 60°C
Compression Format	H.265 / H.264
Effective Distance	10-30m
Application	Outdoor surveillance
