

Description

JSL-E1 is a sleek, compact video door phone equipped with a 2MP HD camera and an IP65 weatherproof casing, making it suitable for both indoor and outdoor installations. It offers versatile access options including BLE, IC card authentication, remote DTMF unlocking, and indoor switch control. Supporting SIP and ONVIF protocols, it integrates effortlessly into a wide range of security and intercom systems. Its modern metallic finish makes it an excellent choice for villas, apartments, and gated communities.

Main Feature

- Compact all-metal housing with elegant minimalist design
- IP65 weatherproof rating for indoor and outdoor installation
- 2MP high-definition camera for clear video communication
- Multiple unlocking methods: BLE, IC cards, remote DTMF, indoor switches
- SIP protocol support for easy integration into VoIP and intercom systems
- ONVIF compatibility for seamless connection to NVR and VMS platforms
- Suitable for villas, apartments, gated communities, and small offices

Specification
