

Description

The JSLv36 is a 10-inch color touch screen video door phone with a sleek, modern design. Equipped with 8 alarm inputs, it enables live video monitoring from door stations and connected IP cameras. Ideal for villas and apartments, it supports entrance call answering, intercom communication with outdoor units, and remote door unlocking. Powered by a Linux operating system, it offers stable performance and supports essential network protocols. With a built-in microphone and speaker, the JSLv36 ensures clear audio, dependable security, and efficient visitor access control for a safer, smarter living environment.

Main Features

- Immaculate and stylish appearance
- 10.1-inch capacitive touch screen, 1024 × 600
- 8' channel wired alarm zone
- Views live video of outdoor stations and linked cameras
