BASIC LOCK MANAGEMENT

With patented electronic keys, Basic Lock Management offers simplified programming and lock management solutions.

Digilock®

PROGRAMMING KEY

- Program and manages locks
- Add or delete manager keys
- One per lock system

MANAGER KEY

- Overrides user access
- Assigns user credentials
- Provides external power
- Up to six manager credentials (Manager Key or RFID credential) per lock

FEATURES

- Auto unlock with a real time clock simplifies management and increases storage capacity.
- Dual functionality locks allow managers the flexibility to switch between shared and assigned use with ease.
- In assigned use functionality, Basic Locks can have one or multiple assigned users.

MANAGEMENT TOOLS

POWER

- Powered by (4) premium AAA batteries.
- Battery expectancy 1-5 years, depending on average use, lock and key battery levels, and storage conditions.
- Most end users should change batteries every 2 years for best performance.
- Digilock recommends Duracell Coppertop or Energizer premium alkaline batteries for best performance.

MATERIALS

- PC/ABS
- Nickel plated zinc zamak 3
- Nickel plated mid carbon alloy steel
- FR4
- Copper
